#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

This Office Action is responsive to the amendment filed December 2, 2005.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3 and 8-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Abe (US 6,685,217).

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Abe discloses a leg protection system comprising: one airbag (60; Figure 7) for protecting an ankle and a knee of the occupant (it is noted that this language of “for protecting” is intended use, however as shown in Figure 9, the airbag would protect the knee and the ankle), the airbag comprising a first chamber (upper chamber 61), a second chamber (lower chamber 61)

Art Unit: 3616

and a duct connecting the chambers (between chambers 62, i.e., at “61a”); and an inflator connected to the airbag for inflating the airbag (5). The second chamber is inflated upwardly along the leg after the first chamber is inflated (note location of inflator 5; Figure 7). The second chamber is inflated in front of the knee (note position of airbag in Figure 9).

As seen in Figure 9, the vehicle comprises an instrument panel (2), a dash panel below the instrument panel (lowest portion below the airbag assembly) and a closing panel (25).

Regarding claim 11, the first chamber is inflated in front of the ankle (see Figure 9, note also that the leg could be moved further backward, such that the first chamber is in front of the ankle). As seen in Figure 7, the duct has a width less than the first and second chambers. The airbag is constructed of front and rear panels (see column 5, lines 9-11; see also Figure 3a) and has second connections in a middle portion (64). As seen in Figure 7, connections 64 make substantially U-shapes extending vertically.

### *Response to Arguments*

3. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

### *Conclusion*

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Dunn whose telephone number is 571-272-6670. The examiner can normally be reached on Mon-Fri, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Dickson can be reached on 571-272-6669. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
